INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, OCTOBER 23, 1999 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Minimal initial attack activity was reported in most Geographic Areas. A new large fire occurred in the Northwest Area. The National Interagency Coordination Center mobilized communication equipment, infrared aircraft, helicopter, air tanker and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, California, Montana, Idaho, Utah, Wyoming, Arizona, Colorado, Missouri, Arkansas and Mississippi.

NORTHERN CALIFORNIA LARGE FIRES:

BIG BAR COMPLEX, Shasta-Trinity National Forest. An Area Command Team (Edrington) is assigned. A Unified Command with a Type I Incident Management Team (Giachino), A Type I Incident Management Team (Stutler) and the Hoopa Tribe is in place. The complex is 28 miles northwest of Weaverville, CA. The complex consists of the Megram and Onion fires. Extremely dry fuel conditions, inaccessible terrain and a heavy smoke inversion hampered fireline construction. Fire in the Tish Tang Creek area was active.

SOUTHERN CALIFORNIA LARGE FIRES:

KIRK COMPLEX, Los Padres National Forest. A Type II Incident Management Team (Roach) is assigned. This complex has been consolidated and includes the Hare, Kirk, Tassajara, Five and Mountain fires. The Tassajara Fire continues to burn around Ventana Double Cone. Airtankers and Type I helicopters are limiting fire spread and pretreating fuels in the Ventana Mesa Creek Drainage.

OUTLOOK:

A strong ridge of high pressure aloft over the interior west will shift slowly eastward. Morning fog and low clouds are forecast along the coast. A Pacific frontal system will bring light rain to the northwest coast in the afternoon. California, eastern Oregon and eastern Washington will continue to be sunny, dry and warm with high clouds. An inversion over the northern Intermountain valleys will cause local haze and poor smoke dispersal. High temperatures will range from 55 to the lower 80's along the coastal sections, with 60's and 70's over the northern Intermountain region. Temperatures will be in the 80's and 90's over the deserts of southern California, Nevada and Utah.
